CALENDER OF ACTIVITIES

			and Even semesters							
4	CSE	Technical talks • Recent Trends in Computer Science • Web Mining • Artificial Intelligence • Natural Language Processing • Human-Computer Interaction	In Odd and Even semesters	Students	A technical talk on recent trends in computer science demonstrate the scope and stature of the field today. Natural language processing(NLP) is a field of computer science, artificial intelligence, and computational linguistics concerned with the interactions between computers and human (natural) languages. As such, NLP is related to the area of human–computer interaction. Human–computer interaction (HCI) researches the design and use of computer technology, focusing particularly on the interfaces	ACES	Various	4*2,500 +TA +Momento	PO1, PO2, PO5, PO6, PO7, PO8, PO9, PO10, PO12	PSO1, PSO2, PSO3

CALENDER OF ACTIVITIES

• Android / Mobile Application development • Big Data and Hadoop / Working with Pig & Hive • Network Simulation Tools – NS2 & NS3 / Network & Multithread			Python is an easy to learn, powerful programming language. It has efficient high-level data structures and a simple but effective approach to object-oriented programming. The aim of this workshop is to introduce the students to python and make them able to design mini projects using this. Cloud Computing Systems, where data is available over the internet rather than local servers and networks are changing the face of on-demand computing. Within the next decade, half of all information technology is estimated to be in the cloud.
